

MSCI USA Selection 100% Hedged to CAD Index (CAD)

The MSCI MSCI USA Selection 100% Hedged to CAD Index represents a close estimation of the performance that can be achieved by hedging the currency exposure of its parent index, the MSCI USA Index, to the CAD, the "home" currency for the hedged index. The index is 100% hedged to the CAD by selling the USD forward at the one-month Forward rate. The index is designed for investors seeking exposure to companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers and a broad, diversified sustainability benchmark with relatively low tracking error to the underlying equity market. The index is a member of the MSCI ESG Leaders Index series. Constituent selection is based on data from MSCI ESG Research.
