General

MSCI uses four main committees to provide overall oversight and governance for benchmark for the MSCI Fixed Income Indexes.

Oversight is provided by the Oversight Committee ("OC").

Governance is provided by the Risk and Regulatory Committee ("RRC"), the Index Policy Committee ("IPC") and the Fixed Income Index Committee ("FIIC").

All of the committees are staffed solely by MSCI group company employees with extensive relevant experience. MSCI believes that its editorial and operational independence is critical to its objectivity, efficiency and avoiding conflicts of interest.

All committee members are expected to act with integrity as is required of all our employees according to our Code of Ethics and Business Conduct posted on www.msci.com.

All decisions taken by the committees are the responsibility of their members

The Fixed Income Index Committee

Description

The FIIC presides over the development, review and interpretation of fixed income index methodologies.

These terms of reference are reviewed and approved by the OC annually.

Responsibility

The key responsibilities of the FIIC include, but are not limited to, the following:

- Review and approve new methodologies and changes to any existing methodologies.
- Review and approve the results of the regular index rebalancing for the MSCI Fixed Income Indexes.
- Review and approve the results of regular index rebalancing of indexes governed by other methodologies, as escalated by index research. Provide the IPC with highlights of rebalancing results.
- Review and approve complex or exceptional corporate event treatment that cannot be addressed by current methodologies.
- Review and approve all proposals for fixed income index terminations not directly as a result of a methodology. Some index terminations may be escalated to the IPC.
- Approve or propose consultations, review feedback, and decide if methodology changes are needed.
- Determine what changes are significant after considering relevant factors such as operational impact on market participants and estimated turnover and transaction costs associated with the changes.
- Review and approve the MSCI Fixed Income Index Policies document.
- Review and approve index implication of changes to the data methodology approved by the Fixed Income Data Committee (FIDC)
- Delegate signoffs and decisions to sub-committees and functional teams for index changes that strictly follow the methodologies.
- May elect to escalate issues to the IPC for changes that it deems major or in cases where there is no agreement / decision.

Composition

- The FIIC is composed of five voting members with significant experience and seniority selected from MSCI's Research. All members are behind the MSCI Information Wall.
- The FIIC may elect to add non-voting members selected from MSCI's Index Research.
- Changes to voting members are proposed by the FIIC and approved by the IPC.

Meetings

- The FIIC is scheduled to meet once a month. In addition, the FIIC meets on an ad-hoc basis if required.
- Regular meetings require the attendance of at least three members. Topics are requested by members or other parties. If there are no topics or no quorum, the meeting is cancelled.
- The agendas for all FIIC meetings contain the date, time, expected attendees and topics. All topics presented at the FIIC generally have supporting documents.
- Generally, the minutes of all FIIC meetings contain the date, time, attendees, conflicts of interest (if any), topics discussed, and decisions made. The secretary will record minutes of each meeting, which will be retained for at least five years.
- In instances when an FIIC decision is required prior to a regular meeting and scheduling an ad-hoc FIIC meeting is not possible, such a decision may be reached via email communication, provided at least three members of the FIIC explicitly approve a proposal. New index methodologies not requiring detailed discussion may also be approved via email communication, based on circulated methodology documents and/or additional supporting materials. In case of exceptionally time critical, typically market driven topics, consent of two FIIC members is sufficient

All rights in the Information are reserved by MSCI and its Information Providers and user(s) shall not, nor assist others to, challenge or assert any rights in the Information.

Unless you contact MSCI and receive its prior written permission, you must NOT use the Information, directly or indirectly, in whole or in part (i) for commercial purposes, (ii) in a manner that competes with MSCI or impacts its ability to commercialize the Information or its services, (iii) to provide a service to a third party, (iv) to permit a third party to directly or indirectly access, use or resell the Information, (v) to redistribute or resell the Information in any form, (vi) to include the Information in any materials for public dissemination such as fund fact sheets, market presentations, prospectuses, and investor information documents (e.g. KIIDs or KIDs), (vii) to create or as a component of any financial products, whether listed or traded over the counter or on a private placement basis or otherwise, (viii) to create any indexes, ratings or other data products, including in derivative works combined with other indexes or data or as a policy, product or performance benchmarks for active, passive or other financial products, (ix) to populate a database, or (x) to train, use as an input to, or otherwise in connection with any artificial intelligence, machine learning, large language models or similar technologies except as licensed and expressly authorized under MSCI's AI Contracting Supplement at <https://www.msci.com/legal/supplemental-terms-for-client-use-of-artificial-intelligence>.

The intellectual property rights of MSCI and its Information Providers may not be misappropriated or used in a competitive manner through the use of third-party data or financial products linked to the Information, including by using an MSCI index-linked future or option in a competing third-party index to provide an exposure to the underlying MSCI index or by using an MSCI index-linked ETF to create a financial product that provides an exposure to the underlying MSCI index without obtaining a license from MSCI.

The user or recipient of the Information assumes the entire risk of any use it may make, permit or cause to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, SUITABILITY, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION. Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall MSCI or any other Information Provider have any liability arising out of or relating to any of the Information, including for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages, even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not be applicable law be excluded or limited.

The Information, including index construction, ratings, historical data, or analysis, is not a prediction or guarantee of future performance, and must not be relied upon as such. Past performance is not indicative of future results. The Information may contain back tested data. Back-tested performance based on back-tested data is not actual performance but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Signals are inherently backward-looking because of their use of historical data, and they are inherently inaccurate, not intended to predict the future and must not be relied upon as such. The relevance, correlations and accuracy of Signals frequently change materially over time.

The Information may include data relating to indicative prices, evaluated pricing or other information based on estimates or evaluations (collectively, "Evaluations") that are not current and do not reflect real-time traded prices. No evaluation method, including those used by the Information Providers, may consistently generate evaluations or estimates that correspond to actual "traded" prices of any relevant securities or other assets. Evaluations are subject to change at any time without notice and without any duty to update or inform you, may not reflect prices at which actual transactions or collateral calls may occur or have occurred. The market price of securities, financial instruments, and other assets can be determined only if and when executed in the market. There may be no, or may not have been any, secondary trading market for the relevant securities, financial instruments or other assets. Private capital, equity, credit and other assets and their prices may be assessed infrequently, may not be priced on a secondary market, and shall not be relied upon as an explicit or implicit valuation of a particular instrument. Any reliance on fair value estimates and non-market inputs introduces potential biases and subjectivity. Internal Rate of Return metrics are not fully representative without full disclosure of fund cash flows, assumptions, and time horizons.

The Information does not constitute, and must not be relied upon as, investment advice, credit ratings, or proxy advisory or voting services. None of the Information Providers, their products or services, are fiduciaries or make any recommendation, endorsement, or approval of any investment decision or asset allocation. Likewise, the Information does not represent an offer to sell, a solicitation to buy, or an endorsement of any security, financial product, instrument, investment vehicle, or trading strategy, whether or not linked to or in any way based on any MSCI index, rating, subcomponent, or other Information (collectively, "Linked Investments"). The Information should not be relied on and is not a substitute for the skill, judgment and experience of any user when making investment and other business decisions. MSCI is not responsible for any user's compliance with applicable laws and regulations. All Information is impersonal, not tailored to the needs of any person, entity or group of persons, not objectively verifiable in every respect, and may not be based on information that is important to any user.

It is not possible to invest in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI makes no assurance that any Linked Investments will accurately track index performance or provide positive investment returns. Index returns do not represent results of actual trading of investible assets/securities. MSCI maintains and calculates indexes but does not manage assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase securities underlying the index or Linked Investments. The imposition of these fees and charges would cause the performance of a Linked Investment to be different than the MSCI index performance.
