MSCI ESG Fixed Income Solutions

More data. More context. More informed decisions.

ESG Fixed Income Solutions are designed for institutional investors looking to integrate ESG factors into the investment process, identify ESG-driven investment risks that may not be captured by conventional analysis, or screen companies in alignment with values or mandates. Coverage includes 13,500 total issuers including subsidiaries and more than 650,000 equity and fixed income securities globally, including the most common issuer types of a fixed income portfolio. MSCI ESG Fixed Income research and ratings are also used in the construction of the Bloomberg Barclays MSCI ESG Fixed Income Indexes.

Key features and benefits

Understand Risks that may not be captured by conventional metrics

MSCI ESG Ratings identifies key ESG issues that hold the greatest potential risk for each sector and specific issuer, including operational and extrafinancial risks often overlooked in traditional credit analysis.

Support ESG integration and PRI compliance

Integrating ESG into the investment process is the first requirement for PRI signatories and is increasingly being mandated and scrutinized by asset owners. MSCI ESG Research's ESG fixed income research is a critical tool to integrate ESG across all asset classes.

Align with values and client mandates

Screen fixed income portfolios to meet specific client mandates or internal compliance requirements on religious, ethical, or other relevant social and environmental criteria.

Monitor compliance with global norms

Monitor fixed income investments for ESG controversies and violations of global norms and conventions to manage reputational risks.

Enable ESG investment product creation and benchmarking

Create ESG index-linked investment products and benchmark the financial and ESG performance of fixed income portfolios using the Bloomberg Barclays MSCI ESG Fixed Income Indices created by MSCI ESG Research and Bloomberg Barclays.

Access in-depth issuer and sector analysis

Issuer and sector reports analyzing the key ESG risks for a set of issuers, changes in the risk landscape, and best practices in risk management. The reports also benchmark and rank issuers on key ESG issues and quantitative ESG performance metrics.

Extensive distribution and access

Easily integrate ESG research and data into your systems via data feeds or access the data via our proprietary platform, ESG Manager, ESG API, MSCI BEON TM, BarraOne and RiskManager platforms, and third party platforms such as FactSet, Barclays POINT, RIMES, StyleResearch and Aladdin.

Award-winning research and indexes

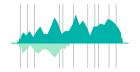

Leverage award-winning ESG Fixed Income research, as recognized in the 2016, 2017, 2018 and 2019 Independent Research in Responsible Investment (IRRI) Survey awards. The Bloomberg Barclays MSCI Green Bond Index was also voted "best index" in 2020 at the Environmental Finance Green Bond Index Awards for the fourth year running.
