

MSCI World ESG Leaders 10% Extended Risk Control Index

MSCI World ESG Leaders 10% Extended Risk Control Index aims to replicate the performance of an investment strategy that attempts to control the level of volatility by adjusting the weights of the MSCI ESG Leaders index, the Treasury Component and the Cash Component.

Index framework

The MSCI Extended Risk Control Indexes use three components in the overall index construction: an MSCI Equity Index Component, a Treasury Component and a Cash-Return Index Component. The weights of the Components are determined daily based on the ratio of the targeted risk level and the volatility of the non-Cash Components and are subject to a maximum leverage.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see [Index methodology - MSCI](#).
