MSCI US IMI Energy 25/50 Index (USD)

The MSCI US IMI Energy 25/50 Index is designed to capture the large, mid and small cap segments of the US equity universe. All securities in the index are classified in the Energy sector as per the Global Industry Classification Standard (GICS®). The index also applies certain investment limits to help ensure diversification—limits that are imposed on regulated investment companies, or RICs, under the current US Internal Revenue Code.

For a complete description of the index methodology, please see Index methodology - MSCI.

SUB-INDUSTRY WEIGHTS

The MSCI US IMI Energy 25/50 Index was launched on Sep 07, 2009. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.
