

# MSCI USA Value ESG Reduced Carbon Target Select Index (USD)

The MSCI USA Value ESG Reduced Carbon Target Select Index is based on MSCI USA Index, its parent index, which includes large and mid-cap stocks across the U.S. equity markets. The index is designed to represent the performance of a strategy that seeks systematic integration of environmental, social and governance (ESG) norms along with the exposure to a value factor.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI USA Value ESG Reduced Carbon Target Select Index was launched on May 14, 2021. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

## ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.
