

MSCI US REIT Custom Capped Index (USD)

The MSCI US REIT Custom Capped Index is designed to measure the performance of the large, mid and small-cap segments of the US equity Real Estate Investment Trusts (REITs) market. The MSCI US REIT Custom Capped Index uses a variation of MSCI 25/50 Indexes methodology, where the weight of any single group entity will be constrained at 22.5% of the Index weight, and the sum of the weights of all group entities representing more than 4.75% weight will be constrained at 24% of the Index weight. All the securities are classified under the Equity REITs Industry (under the Real Estate Sector) according to the Global Industry Classification Standard (GICS®), have core real estate exposure (i.e., only selected Specialized REITs are eligible) and carry REIT tax status.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI US REIT Custom Capped Index was launched on Sep 30, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language.
