

MSCI US REIT Custom Capped Index (USD)

The MSCI US REIT Custom Capped Index is designed to measure the performance of the large, mid and small-cap segments of the US equity Real Estate Investment Trusts (REITs) market. The MSCI US REIT Custom Capped Index uses a variation of MSCI 25/50 Indexes methodology, where the weight of any single group entity will be constrained at 22.5% of the Index weight, and the sum of the weights of all group entities representing more than 4.75% weight will be constrained at 24% of the Index weight. All the securities are classified under the Equity REITs Industry (under the Real Estate Sector) according to the Global Industry Classification Standard (GICS®), have core real estate exposure (i.e., only selected Specialized REITs are eligible) and carry REIT tax status.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI US REIT Custom Capped Index was launched on Sep 30, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
