

# MSCI Emerging Markets 100% Hedged to CAD Index (CAD)

The **MSCI Emerging Markets (EM) 100% Hedged to CAD Index** represents a close estimation of the performance that can be achieved by hedging the currency exposures of its parent index, the MSCI EM Index, to the CAD, the "home" currency for the hedged index. The index is 100% hedged to the CAD by selling each foreign currency forward at the one-month Forward rate. The parent index is composed of large and mid cap stocks across 24 Emerging Markets (EM) countries\* and its local performance is calculated in different currencies.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
